Upcoming project to develop parent-reported measure tying trust and support of care team. For more information, contact Jessi Schnell: jschnell@chw.org

About the Camden Coalition of Healthcare Providers

We are a multidisciplinary nonprofit working to improve care for people with complex health and social needs in Camden, NJ, and across the country. The Camden Coalition works to advance the field of **complex care** by implementing person-centered programs and piloting new models that address chronic illness and social barriers to health and wellbeing. Supported by a robust data infrastructure, cross-sector convening, and shared learning, our community-based programs deliver better care to the most vulnerable individuals **in Camden** and **regionally**.

Through our **National Center for Complex Health and Social Needs** (National Center), the Camden Coalition's local work also informs our goal of building the field of complex care **across the country**. Launched in 2016, the National Center exists to inspire people to join the complex care community, connect complex care practitioners with each other, and support the field with tools and resources that move the field of complex care forward.
